

INTEGRATED QUALITY, ENVIRONMENTAL, OCCUPATIONAL HEALTH, AND SAFETY MANAGEMENT SYSTEM POLICY

In **UNACEM Perú S.A.** we are dedicated to the manufacture and commercialization of clinker, cement, and other construction materials, to the self-generation of electric energy, as well as to the provision of port services.

WITHIN THE FRAMEWORK OF THE ORGANIZATION'S ACTIVITIES, WE ARE COMMITTED TO:

- Respect and enforce the UNACEM Group's Code of Ethics and Conduct.
- Satisfy the requirements of our clients, as well as those defined by the organization.
- Protect the environment and prevent pollution within the framework of the organization's activities, by controlling emissions, energy consumption, and other significant environmental aspects.
- To provide safe and healthy working conditions to prevent injuries, illnesses, and diseases, or incidents related to our extractive, industrial, commercial, self-generation of electric energy and port activities, prioritizing the elimination of hazards and reducing occupational health and safety risks.
- Ensure that workers are considered and actively participate in the occupational health and safety management system.
- Prevent and avoid the use of our operations or facilities for illegal purposes.
- Continually improve the performance of our integrated management system.
- Comply with the legal requirements applicable to our activities, as well as the commitments and requirements agreed or voluntarily assumed by the organization.

The success of our management is based on the harmony, capacity, and attitude of those who work in **UNACEM Perú S.A.**, which consolidates the quality of our products and services, the safety of our workers, profitability, and care for the environment.

Eduardo Sánchez
General Manager UNACEM Perú S.A.
